RICHA MADHUPRIYA

WORK EXPERIENCE

Product Development Engineer I (Phenom | Hyderabad)

August 2021 – Till Date

- Working as an angular developer to develop a low-code platform to create forms and workflows which can be utilized by the engineers with basic technical skills.
- Revised, modularized, and updated old code bases to modern development standards, reducing operating costs, and improving functionality.
- Utilized browser debugging tools like Chrome DevTools and UI profilers to optimize web application performance.
- Designed and developed high-quality user interfaces for distributed systems, adhering to UI/UX design principles and collaborating closely with designers to implement their vision.
- Delivered user support to clients to train, educate and answer questions.

Angular Developer (Capgemini | Hyderabad)

June 2020 – August 2021

- Designed reusable and reliable code for use within distributed development environments.
- Collaborated with project managers to select ambitious, but realistic coding milestones on pre-release software project development.
- Designed and developed high-quality user interfaces for distributed systems, adhering to UI/UX design principles and collaborating closely with designers to implement their vision.

EDUCATION

Lovely Professional University, Jalandhar, Punjab, India

July 2014 – May 2018

ROLES AND RESPONSIBILITIES

- Build a low code UI platform for forms in Angular 10

TOOLS

- VSCode, IntelliJ, Postman
- Test driven development
- JIRA/Confluence, JAMA
- Agile Methodologies

- Collaborate with cross-functional teams, exhibiting excellent communication skills to align technical solutions with business requirements.
- Interact with the teams using the product to understand the development requirements and develop the functionalities accordingly.
- Work on service requests from the clients and provide support for the changes moved to production within the SLAs.
- Lead a ten-member team, alongside playing the role of a scrum master and assist the members with any kind of issues/blockers with the internal teams.
- Collaborate with the team to discuss the code optimization and work to improve the product efficiency.

ACCOMPLISHMENTS

- Supervised a team of 10 members and led the team to achieving more than the desired outcome set for the quarter.
- Nominated for Rising Star and Star of the Month awards.
- Led a team of peers for internal POC projects working on a prototype of social networking site.
